RAHUL B

Data Analyst

Bengaluru, Karnataka, India | +91 7975455934 | rahulbavigadda2004@gmail.com

linkedin.com/in/rahul-b-5780ba354 | github.com/Roronoa-Zoro-777

PROFESSIONAL SUMMARY

Computer Science Engineering graduate specializing in data analysis, statistical modeling, and BI reporting. Skilled in Python, SQL, and query optimization, with hands-on experience turning raw datasets into actionable insights through 4+ end-to-end analytics and machine learning projects. Adept at building dashboards (Power BI, Tableau), evaluating models with precision/recall/F1-score, and communicating findings to non-technical stakeholders. Seeking to apply strong analytical and problem-solving skills in a Data Analyst role.

TECHNICAL SKILLS

Languages & Querying: Python, SQL (Advanced Queries, Joins, Query Optimization), Java, JavaScript

Data Analysis & BI: Data Extraction, Data Modeling, Data Cleaning & Wrangling, Statistical Analysis, Power BI, Tableau

Databases: MySQL, MongoDB, RDBMS Design

Machine Learning & AI: Scikit-learn, TensorFlow, PyTorch, Keras, OpenCV, Hyperparameter Tuning, Model Evaluation (Precision, Recall, F1-Score, Confusion Matrix)

Tools & Platforms: JupyterLab, Git, Excel/Google Sheets, AWS (Data Analytics fundamentals)

Core Strengths: Analytical & Detail-Oriented Problem Solving, Cross-Functional Collaboration, Data Storytelling

PROFESSIONAL EXPERIENCE

Software Development Intern [Full Stack Web Development] | SuperMentr **Feb 2026 – May 2026**

Bengaluru, India

- Developed full-stack web application features supporting internal data-analysis workflows, from data ingestion through reporting.
- Processed and cleaned datasets to support downstream analysis, collaborating with the team to translate raw data into actionable insights.
- Contributed to feature development in an Agile, version-controlled environment.

PROJECTS

Finance Management & Analytics Dashboard | *Power BI, Tableau, SQL*

- Designed interactive Power BI and Tableau dashboards to track monthly budget variances, enabling faster identification of spending anomalies.
- Transformed raw financial data into clear, stakeholder-ready KPI visualizations to support data-driven budget decisions.

Sales Analytics Dashboard: EDA, ML & Profit Prediction | *Python, Pandas, Scikit-learn, Streamlit, Plotly*

- Engineered an end-to-end analytics pipeline for a 6,000-order retail dataset spanning 5 regions and 6 product categories, by building data cleaning, EDA, and feature engineering scripts in Python.
- Built and compared Linear Regression and Random Forest models to predict order profit, improving predictive accuracy to $R^2 \approx 0.95$ (vs. a 0.76 linear baseline) through iterative feature engineering and model selection.
- Developed an interactive Streamlit dashboard with KPI cards, regional/category filters, and a live "what-if" profit predictor — surfacing insights like a Nov–Dec seasonal sales spike and Electronics' high-revenue, low-margin profile.

Restaurant Industry Data Analysis Dashboard | *Python, Pandas, Streamlit*

- Analyzed a 9,551-record restaurant dataset across three analytical tiers, by evaluating cuisine trends, city-level distribution, and price-range segmentation to surface consumer behavior patterns.
- Investigated restaurant ratings, cuisine combinations, geographic distribution, and review sentiment to identify key factors behind customer preference and engagement.
- Correlated pricing with service features (online delivery, table booking) and deployed a public-facing interactive Streamlit dashboard translating multi-tier analysis into a stakeholder-accessible tool.

Solo Leveling System (Android App) | *Kotlin, Jetpack Compose, Firebase Firestore/Auth*

- Built a real-time data-sync backend using Firebase Firestore/Realtime Database to support live updates across custom Jetpack Compose UI components.
- Implemented secure user authentication and session management using Firebase Authentication.

EDUCATION

Bachelor of Engineering, Computer Science and Engineering **2022 – 2026**

T John Institute of Technology, Bengaluru — CGPA: 7.78 / 10

CBSE (PCMC), SVVN PU College, Neralur, Bengaluru **2020 – 2022**

Percentage: 80%

CERTIFICATIONS

- IBM Data Analysis Certification (IBM)
- Data Analysis Job Simulation (Deloitte)

LANGUAGES

English, Telugu, Kannada — Fluent | Hindi — Basic
